APT

A Master Card Company

Washington, D.C

4250 N Fairfax Dr, 11th Floor

Arlington, VA 22203

I am submitting my resume for consideration for the summer intern as Software Engineer at your company APT, Washington DC. Given the skills and experience outlined in my enclosed resume, I believe I will be a worthy asset to your team.

In my two years of college, I've completed a great deal of coursework on programing, data structures and web development. I have learned a lot from my college and I would like to implement all my skills in your company so as to gain real world experience.

In addition, I would like to mention one of the most important point. I am pursuing my bachelor of science in Computer Science Engineering from National Institute of Technology, Jalandhar, Punjab, India. My father work in Embassy of India, Washington DC so during this summer I am here in DC and this is a great opportunity for me as I can do internship in your company. I have completed my high school diploma from Northwood High School, Silver Spring, Maryland, USA.

I am a student and this is the only great opportunity for me to enhance my skills and get the real world experience. I am willing to do both paid and unpaid internship as my motive to get knowledge and experience instead of wasting my summer. I want to be a Software Engineer and I believe that this internship is best suitable for me.

I also believe that I would make an excellent addition to your team. This internship would help me grow my real-world experience in the technology industry and help me further develop and refine my development skills.

I look forward to hearing from you!

Sincerely,

Gaurav Sachdeva
